

Front and back doors

Replace for added peace of mind.

Doors give the very first (and last) impression of your home to visitors. They stand between you and the elements. Do your existing doors really stand up to the nonstop demands of everyday life?

Protect your family

Do your doors help to protect you and your family? Our doors do exactly that, whether you are in or out. Made of long lasting and durable PVC-U and with proven high performance for security and safety, they'll stand up to the challenges of your busy everyday life. For even more peace of mind, you can add Police approved "Secured by Design" locking hardware.

Make a great first - and last impression

How do you create a lasting impression? With PVC-U doors that are as visually striking as they are strong. Upgrade your home with front and back doors that offer a choice of door panels and designs. This positive impression is lasting in other ways, too - many, many years with virtually no maintenance because, being PVC-U, your replacement doors won't rot or fall apart, however hard you make them work.

Build your character

Our PVC-U doors let you add even more character to your house. It starts with your choice of styles, whether you prefer a classic White finish or traditional woodgrain effect. Then you make a selection from our extensive collection of door furniture. Finally, you can bring the final touch of personality to your home by adding an optional sidelight or toplight.

Easier access

Whether going to work, going out, enjoying the garden or welcoming family and friends, life is busy for you and your home. Easy access matters. Our doors come with optional Part M compliant low thresholds which are specially designed to provide access for wheelchairs and pushchairs. So everyone can get on with enjoying life.

French doors

Open out your space in classic style.

You'll find our PVC-U French doors bring added flavour to family life. French doors feature two leaves hinged on either side that typically open outwards to leave a clear opening. You can make access even easier by adding one of our low threshold options.

The enjoyment doesn't stop there. Fine dining with added elegance, great summer parties with easy access to the garden, added natural light. Your new French doors give you all this and more. What colour of door frame and hardware options you choose is up to you.

While you get on with living your life, your French doors will keep you safe and secure, with their high quality key-operated locking mechanisms.

The low maintenance benefits and long life of PVC-U gives you even more time to relish your added space.

The only instructions you'll ever need with our French doors are:
"Install. Relax. Enjoy."
